Digitized by the Internet Archive  
in 2010 with funding from  
Research Library, The Getty Research Institute

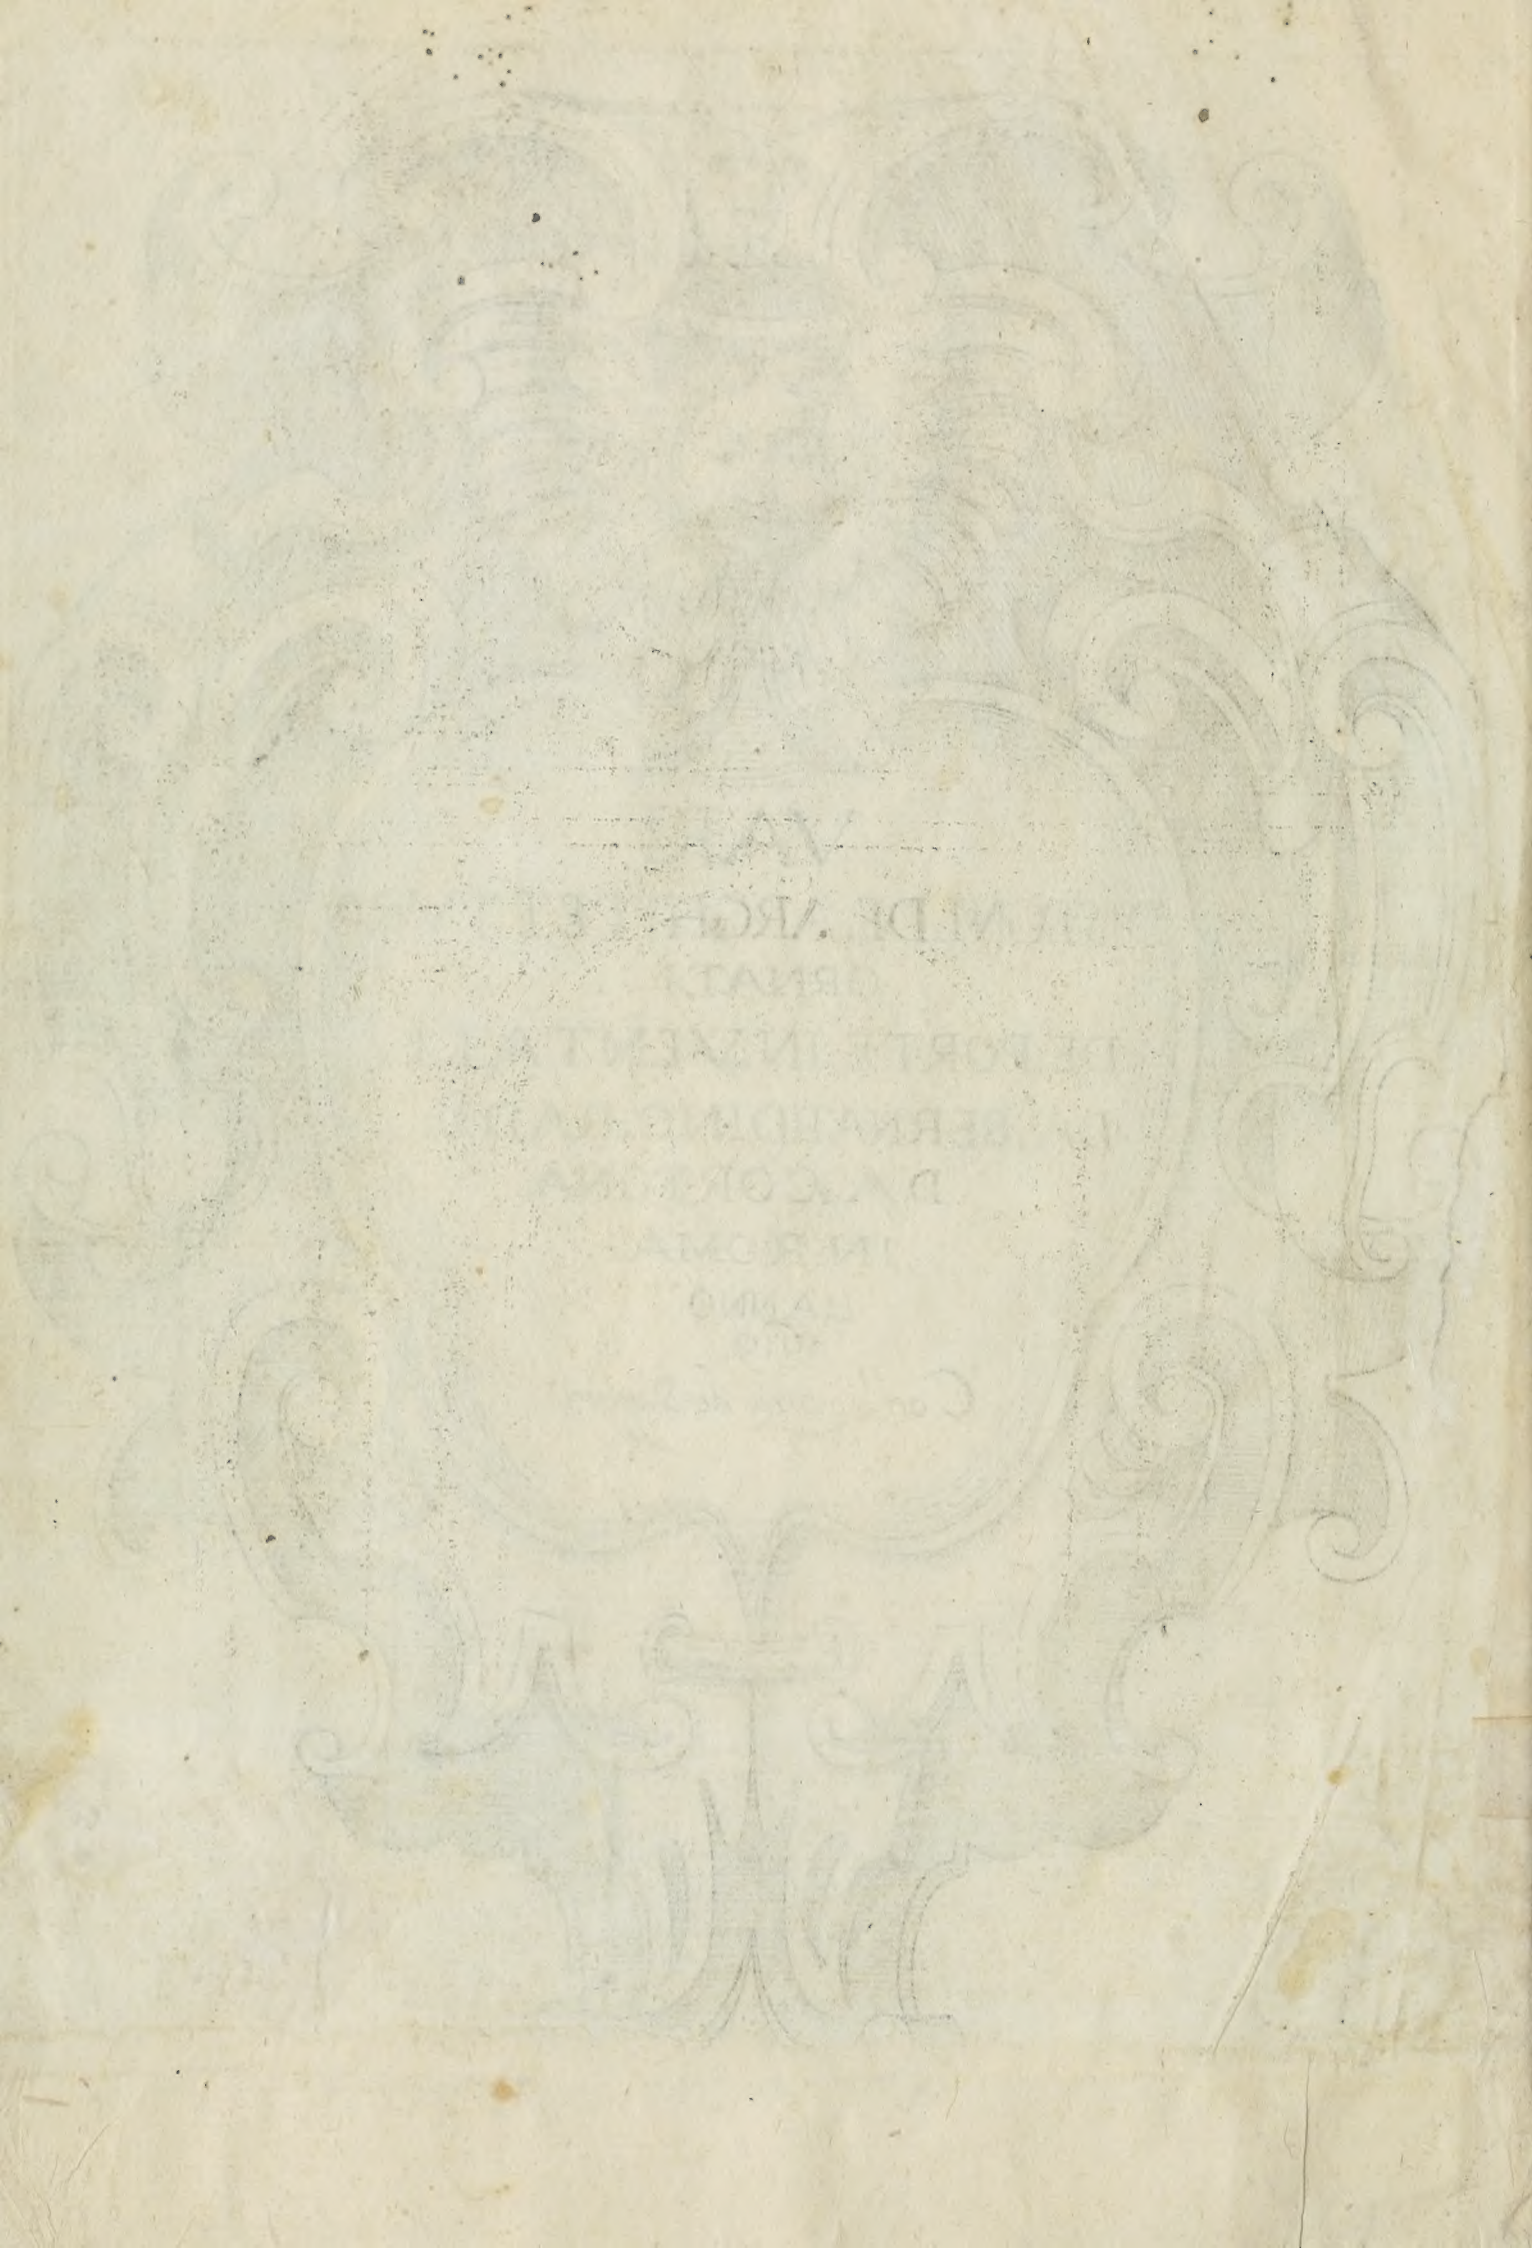

The title page features a highly decorative border of scrollwork and a central cherub with large, feathered wings. The text is centered within a large, ornate oval frame. The text reads:

VARI  
DISEGNI DE ARCHITETTURA  
ORNATI  
DE PORTE INVENTATI  
DA BERNARDINO RADI  
DA CORTONA  
IN ROMA

L'ANNO  
1619

*Con Licenza de Superiori*

Faint, illegible text in the center, likely bleed-through or a stamp. The text is arranged in several lines and includes words such as "DE. VICE", "LIBRARY", "IN ROMAN", and "L. ANNO".

Al<sup>mo</sup> Ill<sup>mo</sup> & R<sup>mo</sup> S<sup>r</sup> Il Sig<sup>r</sup> Card<sup>le</sup> Borghese -

Cresce hoggi Ill<sup>mo</sup> Principe con artificio mirabile lo studio del disegno, e  
del'Architettura con l'accrescimento che con marauiglia si mira delle fabbriche,  
et ornamenti, da quali in questo felicissimo Ponteficato si riguarda questa Città  
renouata, e quasi restituita nell' antiche grandezze; onde è che si son' uiste l'opere  
di molti studiosi, non pure esser state care, mà desiderate uniuersalmente.

Da questo mosso io a publicare alle stampe queste mie fatiche da me inuentate, ho  
ardito di fregiare questo mio libro, e ornar questi ornamenti del suo gloriosissimo  
nome, Inuitato dall' application che hà sempre mostrato V. S. Ill<sup>ma</sup> con animo  
Croico, alla protectione di quelli che in qualche uir tuofo studio han procurato  
auanzarsi. poiche oltre l'hauer appoggiato questo mio parto a tanta protett<sup>ne</sup>  
consequirò anche di hauer dato qualche segno a V. S. Ill<sup>ma</sup> della riuerente  
osseruanza che come suo ser<sup>re</sup> Deuot<sup>mo</sup> son tenuto professar le, et le fo hu:  
milissima riuerenzia.
